DEPARTMENT OF SOCIOLOGY

Mr. Pouluanthai Phaomei (Samuel)
Assistant Professor
HoD. Department of Sociology

We live in the second decade of the twenty-first century- a world that is intensely worrying, yet full of the most extraordinary promise for the future. It is a world marked by rapid changes, deep conflicts, diseases, mental tensions and social divisions, as well as by increasing concerns about the destructive impact of human societies on the natural environment. Yet we also have new opportunities for controlling our destiny and shaping our lives for the better that would have been unimaginable to earlier generations.

Amidst these uncertain days of human history and challenging moments for the world, I would like to bring forth the report of Sociology Department. The Department of Sociology has four Assistant Professors i.e. Pouluanthai Phaomei (Samuel) the Head of the Department, Jananko Tingwa, Sr. Fatima and Dr. Lalgin Chongloi vibrantly leading the department. The department has witnessed a sudden surge in the number of students in the sixth semester numbering to eighty this year.

Departmental Seminar

The Department of Sociology conducted the annual departmental seminar on the topic: “A Decaying Traditional Institution: A case study of Youth Dormitory among the Tribes of Arunachal Pradesh” on the 29th of October, 2019. The occasion was graced by Mr. John Gangmei, Assistant Professor of Rajiv Gandhi University from the Social Work Department as the Resource Person. The seminar began with an address from Dr. (Fr.) Jose George, the principal of the college which was followed by presentations of the papers by four different groups. At the end of the presentations, Miss Jananko moderated the floor discussions, during which queries were made to the presenters. The seminar ended with the detail inputs from Sir John Gangmei on the theme of the seminar.

The Department of Sociology, Don Bosco College, Itanagar, organized two-day national seminar in collaboration with National Bank for Agriculture and Rural Development (NABARD) and Indian Council of Social Science Research (ICSSR) on “**Socio-Cultural and Economic Linkages to Sustainable Development in North-East India**”. Sustainable development means different things to different people, but the most frequently quoted definition is from the report Our Common Future (also known as the Brundtland Report): “*Sustainable development is development that meets the needs of the present without compromising the ability of future generations to meet their own needs.*”

Sustainable development focuses on improving the quality of life for all of the Earth’s citizens without increasing the use of natural resources beyond the capacity of the environment to supply them indefinitely. It requires an understanding that inaction has consequences and that we must find innovative ways to change institutional structures and influence individual behavior. It is about taking action, changing policy and practice at all levels, from the individual to the international. The seminar emphasized on realizing the dream of a sustainable society and its variables which are intertwined in the socio-cultural practices amongst the people of North-East India. The seminar

focused on the various issues of sustainable development in the region such as sustainability of jhum cultivation/ slash and burn cultivation, small scale and cottage industries, challenges of climate change, protection of bio-diversities, agricultural products and its marketability, role of NABARD, food security, conservation of natural resources, income and wealth disparities, gender issues, cultural and social sustainability and many other far-ranging issues of the region.

The seminar was held on August 9th and 10th, 2019, at Don Bosco College, Itanagar, in which vibrant team of Professors, Assistant Professors, Research scholars, Directors, General Manager and other government officials had actively participated. The seminar gathering was enlightened by 5 resource persons, chief guest, guest of honor and the keynote speaker. There were 36 paper presenters from different parts of the country and 80 active participants who have participated and benefited from the seminar.

In the two-day national seminar 121 participants from various states of India attended the seminar. In the inaugural session, the Chief Guest, Guest of Honor and Key Note Speaker chaired the session which was followed by the first in-put session with two renowned Resource Persons. In total, the seminar had three in-put sessions where 5 resource persons interacted with the paper presenters and participants in the two technical sessions, a total of 22 papers were presented in the first two-day national seminar. In the third technical session, there were 12 papers presented by scholars from across the country. The keynote speaker, the chief guest and guest of honor had ignited the minds of presenters, participants and the student community to understand the real sense of sustainable development in various dimensions. It had enriched the learning experience through powerful speeches, insightful and effective presentations of the keynote speaker, chief guest and guest of honor.

DEPARTMENT OF SOCIAL WORK

Mr. Francis Hasdak
Assistant Professor
HoD. Department of Social Work

“The profession of social work doesn’t require sharp witted persons who may crack most difficult exams, but those softhearted individuals who get cracked by single sight of helplessness”

The Department of Bachelor of Social Work (BSW) was introduced in Don Bosco College, Itanagar in the academic year 2018-19. The course of study is affiliated to Rajiv Gandhi University. The academic year 2019-20 was filled with numerous activities in order to facilitate quality learning for the students. The two important components of Social work education vis-a-vis theory and practice was well balanced. The Social Work Practicum, the soul of social work education was paid much stress in order to facilitate hand on experience. The trainee social work students went for their field work to different agencies, and organization. Besides the classroom learning, the Department of the Social Work has conducted various workshop and initiatives with a view to supplement the must have knowledge for the trainee social workers of today.

Gender Inclusive Ecological Farming

The two days’ workshop held on 12th and 13th February, 2020 under the theme, “Gender Inclusive Ecological Farming” was organized by the Department of Social Work. Farmer Samir Bordoloi (General Secretary of social Enterprise SPREAD- NE) (Vice President of Indian Agripreneur’s Association) and Kong Balarisha Lyndoh, expert on Gender Inclusive ecological farming workshops (Founder of Kong organization) were the Resource Persons. This workshop was organized to introduce the students about organic farming with zero expense and also about Entrepreneurship. The trainee social workers were taught how to make compost heap, Bio-Intensive raised beds, Vermi-Wash, and Vermi Compost. Understanding Gender was also dealt in order to understand the gender inequality that exists in the family. It made a huge impact on perspective of gender and helped trainees to understand the role differences in the society. As a whole it taught everyone a great lesson on how people of northeast needs to wake up and start preserving the nature and make wealth out of it without harming the nature.

Rural Camp

The 4th Semester trainees of social work had Rural Camp at Jengraimukh, Majuli from 15th to 19th February, 2020. Rural/Village Camp is integral part of concurrent field work conducted where the social work trainees together with accompanying faculty member of the department spends 5 consecutive days in any identified village. The objective is to make the trainee Social Workers to experience group planning and initiate them to social engagement in the community applying the principles methods of Social Work.

During rural camp, the students experienced group living for five days. Orientation visits to various organization and schools, cleanliness drive, Organic farming and cultural program were conducted. They also participated in the Aleya Legang festival of the Mising people. During the camp students

were able to know about the people, language, culture and food habits of the Mising Community.

“Orientation visit to BPL Colony Lower Jolly”

The department of social work organized an orientation visit to BPL Colony on 29th February, 2020. The visit was organized for the students to have first hand experience and see for themselves the conditions in which people are living in the colony.

The students were divided into various groups in order to facilitate better coordination. The students went into the homes of the people and had interaction with them. Interacting with the community was an eye opener for the students to sympathize and get into the problems of the people.

The major findings of this orientation visit are as follows

1. Lack of proper drainage system in the colony which led to water stagnation.
2. The Colony is neglected by the municipality.
3. Provision for fund not sanctioned after the promises made to them.
4. The population is about 500 people, of which majority are youths who are going to various schools and colleges.
5. There is no organized mechanism that caters to the welfare of the people.

The visit to BPL Colony for the students was quite encouraging and important. This experience enabled the students to understand life in a much deeper way. The society in which people live have have's and have's not and those at the margins of the society are the majority.

International Women's Day.

We are living in times where we don't need to give women a voice, we have to listen to her and as long as we are listening, we have a way of helping. – Sushmita Sen

The Department of Social work celebrated International women's day on 8th March 2020 at BPL Colony lower Jolly under the theme, “I am Generation Equality: Realizing Women's Rights”. The program commenced with the words of welcome by one of the students and followed by a song and skit which was followed by an interaction with the women folk. This interaction was an eye opener for many trainees for it allowed them to learn, understand and know about the struggles

that women go through. As a token of love the trainee social work students presented Sanitary pads to all the participants. The day's program concluded with a sumptuous tea.

Academic Teaching-Learning processes in the formal classes have been carrying out through classroom lectures, use of white board, Power Point Presentations and presentation of subject related video(s). We try to involve students actively in the learning process with group discussions and presentations in the classroom. Teachers provide study materials (print and e-copies) for the students to learn and prepare themselves for the Final examinations. The students are advised to visit the college library frequently and keep up the habit of constant reading to enhance their learning.

Assessment of Students' Academic Performance and Results

The academic performances of students are assessed through Internal Tests and Assignments which are mandatory requisites for qualifying themselves in the University Final Examinations. Teachers are also encouraged to take extra mile(s) on their own to ensure high performance

from students. Though the department maintains 100 percent pass percentage in the University Examinations, it had failed to obtain rank holders in the University Final Examinations of the academic session, 2018-2019. Sr. Scolastica Kerketta fma
Assistant Professor Dept. of English
Jesus Youth Animator

"Don't let anyone look down on you because you are young, but set an example for the believers in speech, in conduct, in love, in faith and in purity". (1 Timothy 4:12)

Another year has passed fruitfully and successfully. I look forward to our Annual report because it gives us a golden opportunity to look back over the past days to see how the Lord has been at work in our lives and how He has blessed each one of us to accomplish the dreams, hopes, aspirations, plans, and projects that the members of Jesus Youth had chalked out for the academic year 2019-2020.

Jesus Youth is an International Catholic Movement with focus on evangelizing as well as promoting the missionary initiatives of young people. The strength of the movement focuses on a life centered on Lord Jesus Christ. It strives to cultivate in its members a life of missionary discipleship, urging them to become joyful witnesses of the Gospel in the world. It is basically a lifestyle which orients people to a renewed encounter of the Lord by an adult renewal of their baptism and follows them up in deepening their faith.

The J.Y. members keep themselves busy throughout the year with various activities which aims at bringing them closer to God. We had wide range of activities that rendered the same. This year we had Miss Richa Mathew as the full timer who had come all the way from Chhattisgarh.

In every culture and age, music is the language of emotion. It expresses, arouses, and speaks to our feelings. Music is capable of moving us in subtle and profound ways in anticipated and unexpected ways - with or without words. As David played skilfully on his harp, Saul's troubled spirit was calmed (1 Samuel 16: 23.) In Matthew 11: 17. Jesus referred to music that made people want to dance or mourn. God commands us to sing with thankfulness in our hearts to God (Colossians 3: 16.) Our hearts should be involved because music is meant to affect us.

Therefore, we live in a beautiful time, a time where humanity is waking up to its connection to something eternal and to our connection to mother Earth. Everything is speaking to us and everything is singing its vibration across creation. Tribal gatherings are a celebration of life, of success, of fruitfulness of harvest, of oneness of the Earth, of beauty and of love.

The Bosconian Choir represents the college in various programmes and participates in other events outside the college. The choirs' repertoire includes the traditional country and Christian hymns accompanied by musical instruments. They are the vibrant and talented team of more than fifty to sixty students belonging to different departments which add colour to all the events of the College through their melodious and breathtaking voice.

Some of the events where they have exhibited their talents are: Inauguration of the academic year, National Seminar by Sociology Department, Freshers' Day cum DBC Foundation Day, Graduation day cum-felicitation of Rank holders, Gospel Song Competition, Teachers' Day, College Week, Pre-Christmas, Nyokum festival, Hamara Arunachal Abhiyan (AAS) inaugurated by Home Minister Bamang Felix and Lt. Fr. Salew Thomas Sdb Memorial Volleyball Tournament, Farewell for the outgoing final semester students etc. The Choir has ample opportunities to develop oneself so that the students could grasp this golden chance to discover and explore their talents.

Bosconian Proclaimers

"The Word of God is alive and active and it is sharper than any double edged sword". (Heb. 4:12) The main purpose of reading God's word at the morning Assembly is to lead the students to love and to know him so that they discover the Creator's plan in their life and strive earnestly to achieve their goal. For whoever has God, whoever encounters Him, looks to the future with confidence and will experience the presence of God in the unfolding of history. The scripture reading gives reflection to help the students cope up with the current situations as a time of grace. Don Bosco and Mary Mazzarello's preoccupation was to educate the youth to the faith and to lead them to God. This is being stressed in Strenna 2020 by the Rector major Rev. Fr. Angel Fernanadez Artime SDB to make the young people "Good Christians and Honest citizens". The youth wait for us in the house of life where today there is lack of credibility in the world and we are asked to help them in our educational process.

SALESIAN YOUTH MOVEMENT ANNUAL REPORT 2019-20

Mr. Francis Hasdak
Assistant Professor, Department of Social Work

“It is not enough that you love the young.... They must know that they are loved”.-Don Bosco
Salesian Youth Movement is an International Don Bosco Youth Movement that has a relationship to Don Bosco and his pedagogy and Spirituality. SYM offers the students a transforming journey to growth and wholeness. It seeks to enrich the students with activities that stimulate interests in pursuit of academic excellence, steer initiatives beyond classrooms.

Bosco Out Reach

On 31st of January, 2020 on the feast of Don Bosco, the Salesian Youth Movement members went for the outreach programme to Sir. Bimal Minj’s hostel. The purpose of this outreach was to celebrate the person of Don Bosco and share that love to the youth. The members animated the youths, and told them about the life of Don Bosco. They also engaged them in active discussion, party songs, games and dances. Thus, they ended the outreach programme making it more meaningful by engaging with the young.

Jesus said, “I am the way, the truth, and the life” (John 14:6). Don Bosco following the footsteps of his master Jesus, many years later combined the wisdom of God with the wisdom of the world. He was a seeker of truth, a doer of his ways and thoughts and a boundry breaker of going beyond the ordinary. For Don Bosco, his call to every youngster was to rewrite their lives which is based on three pillars: Reason to move from a condemning attitude to a commending one; Religion to move from doubt and dryness in faith to dynamism of faith and love in God; and Loving kindness from the routine of everyday life to a rhythm of appreciating and loving those we live with. Viva Don Bosco.

Don Bosco College, Jollang, Itanagar has always had its own mentoring system where students were divided according to the various departments which they belonged to and were mentored by the teachers. However, there was a need for systemizing of the whole endeavour. Therefore, with the assistance and guidance of the Principal, a new team was created to make mentoring a systematic and organised affair, which would be simple and catering to the needs of the students. Mr Luhish Lushai and Dr. Anna Lungbila were given the task of carrying out the venture of Mentoring system in the college.

The Mentoring team carried out the division of the whole college which includes the mentees and mentors of all the semesters and streams. Each Mentor is assigned with 37 to 40 mentees. After a long discussion and deliberation, a Mentoring Record Book was created in order to systematise the whole mentoring venture in the college. A Mentoring Record Book of each mentee is given to the mentor who monitors the progress that is made in each mentee's experiential journey as student at Don Bosco College, Jollang, Itanagar. It also helps the mentor to help students in various aspects of academic, personality and mental growth of the mentee.

Small groups with a faculty mentor each can be used for discussions and open thinking towards the self. Discussion on Universal Human Values could even continue for rest of the semester and not stop with the induction Programme.

Besides drawing the attention of the student to issues of life and their role in larger society, it would build relationships between teachers and students which last for their upcoming 3 years and possibly beyond. It is important, therefore, that it be conducted by faculty members of the College, the ones who would teach them.

EMERGENCY PREPAREDNESS CELL

Mr. Samsong Mossang
Coordinator
ANNUAL REPORT 2019-20

A disaster can occur when we least expect it and regardless of where we happen to be at the time home or college. Most universities and colleges encourage students and faculty to develop an emergency plan. The Emergency Preparedness Cell was formed for that particular reason so that the College is ready to tackle any untoward disaster. It was founded this academic year, i.e, 2019-2020. The Emergency Cell can play a significant role in ensuring the safety of the students by putting in place foolproof mechanisms and impregnable standards of safety. The key lies in institutionalizing the best practices and standard operating procedures that can substantively protect students from any threats and make them feel safe in the College.

The Cell had planned to perform emergency drills but due to the pre engagements of the Coordinators and the rise of Covid-19 couldn't go through with the plans. Hopefully we will perform those drills when the college reopens.
